Plant and Soil **138**: 323–325, 1991.

Contents of Volume 138 1991

Volume 138, No. 1

E. M. A. Smaling, A. Stein and P. H. M. Sloot, A statistical analysis of the influence of *Striga hermonthica* on maize yields in fertilizer trials in Southwestern Kenya 1
J. H. Fownes and D. G. Anderson, Changes in nodule and root biomass of *Sesbania sesban* and *Leucaena leucocephala* following coppicing 9
H. A. van de Venter, M. Furter, J. Dekker and I. J. Cronje, Stimulation of seedling root growth by coal-derived sodium humate 17
D. J. Hatch, S. C. Jarvis and S. E. Reynolds, An assessment of the contribution of net mineralization to N cycling in grass swards using a field incubation method 23
C. Hamel, U. Barrantes-Cartín, V. Furlan and D. L. Smith, Endomycorrhizal fungi in nitrogen transfer from soybean to maize 33
C. Hamel, C. Nesser, U. Barrantes-Cartín and D. L. Smith, Endomycorrhizal fungal species mediate ^{15}N transfer from soybean to maize in non-fumigated soil 41
J. D. van Elsas, L. S. van Overbeek and R. Fouchier, A specific marker, *pat*, for studying the fate of introduced bacteria and their DNA in soil using a combination of detection techniques 49
P. Keerati-Kasikorn, R. W. Bell and J. F. Loneragan, Response of two peanut (*Arachis hypogaea* L.) cultivars to boron and calcium 61
L. Johnsson, Trends and annual fluctuations in selenium concentrations in wheat grain 67
S. C. Das, B. Mandal and L. N. Mandal, Effect of growth and subsequent decomposition of blue-green algae on the transformation of iron and manganese in submerged soils 75
M. J. Mazzarino, L. Oliva, A. Abril and M. Acosta, Factors affecting nitrogen dynamics in a semiarid woodland (Dry Chaco, Argentina) 85
J. F. Ponge, Succession of fungi and fauna during decomposition of needles in a small area of Scots pine litter 99
A. Limami and T. Lamaze, Calcium (^{45}Ca) accumulation and transport in chicory (*Cichorium intybus* L.) root during bud development (forcing) 115
C. Camiré, B. Côté and S. Brulotte, Decomposition of roots of black alder and hybrid poplar in short-rotation plantings: Nitrogen and lignin control 123
S. O. Afolami and B. Fawole, Effect of *Pratylenchus sefaensis* Fortuner 1973 on growth and yield of *Zea mays* L. cv FARZ-7 under continuous cropping 133

Short communications

C. P. Sharma, P. N. Sharma, C. Chatterjee and S. C. Agarwala, Manganese deficiency in maize affects pollen viability 139
L. A. Sullivan, The response of dryland wheat to petroferric horizon depth 143

Volume 138, No. 2

P. R. Darrah, Models of the rhizosphere. II. A quasi three-dimensional simulation of the microbial population dynamics around a growing root releasing soluble exudates 147
C. Tang, A. D. Robson and M. J. Dilworth, Inadequate iron supply and high bicarbonate impair the symbiosis of peanuts (*Arachis hypogaea* L.) with different Bradyrhizobium strains 159
R. Duponnois and J. Garbaye, Effect of dual inoculation of Douglas fir with the ectomycorrhizal fungus *Laccaria laccata* and mycorrhization helper bacteria (MHB) in two bare-root forest nurseries 169
S. C. Jarvis and D. Barraclough, Variation in mineral nitrogen under grazed grassland swards 177
K. G. Alexander and M. H. Miller, The effect of soil aggregate size on early growth and shoot-root ratio of maize (*Zea mays* L.) 189
F. A. Homer, R. S. Morrison, R. R. Brooks, J. Clemens and R. D. Reeves, Comparative studies of nickel, cobalt, and copper uptake by some nickel hyperaccumulators of the genus Alyssum 195
S. Akao, S. Nakata and T. Yoneyama, Formation of nodules on non-nodulating soybean T201 after treatment with 2,4-dichlorophenoxyacetate 207
S. S. Gnanamanickam and T. W. Mew, Interactions between *Sarocladium oryzae* and stem attacking fungal pathogens of rice 213
H. K. Reding, P. G. Hartel and J. Wiegel, Effect of Xanthobacter, isolated and characterized from rice roots, on growth of wetland rice 221
R. B. Jackson and M. M. Caldwell, Kinetic responses of Pseudoroegneria roots to localized soil enrichment 231
S. A. Materechera and G. R. Mehuys, Organic manure additions and the leaf water potential and yield of barley 239
P. B. Hook, I. C. Burke and W. K. Lauenroth, Heterogeneity of soil and plant N and C associated with individual plants and openings in North American shortgrass steppe 247
B. H. Svensson, L. Klemedtsson, S. Simkins, K. Paustian and T. Rosswall, Soil denitrification in three cropping systems characterized by differences in nitrogen and carbon supply. I. Rate-distribution frequencies, comparison between systems and seasonal N losses 257
L. Klemedtsson, S. Simkins, B. H. Svensson, H. Johnsson and T. Rosswall, Soil denitrification in three cropping systems characterized by differences in nitrogen and carbon supply. II. Water and NO_3 effects on the denitrification process 273
H. Johnsson, L. Klemedtsson, Å. Nilsson and B. H. Svensson, Simulation of field scale denitrification losses from soils under grass ley and barley 287
D. J. Wolyn, D. A. St. Clair, J. DuBois, J. C. Rosas, R. H. Burris and F. A. Bliss, Distribution of nitrogen in common bean (*Phaseolus vulgaris* L.) genotypes selected for differences in nitrogen fixation ability 303

Short communication

G. H. Snyder and D. B. Jones, Post-emergence treatment of iron-related rice-seedling chlorosis 313
